

## St Peters NM Delivery Plan Invitation to Provide Feedback and Criticism

10th July 2007

As its second draft now heads for publication, there is a significant need for further development of the St Peters Neighbourhood Management Delivery Plan, not only for now but continuously over the 10 to 15 yr lifecycle of the plan. That the plan is further improved and developed was the general consensus jointly reached at the SPDP Special meeting held at the Highfield Centre 2<sup>nd</sup> July 2007.

To reiterate and confirm the nature of the plan... we would say that it is intended that the delivery plan is a dynamic and evolving blueprint for improvement lifecycle in St Peters in the short, medium and long term.

Also that you all had views on that it

- Fell short of expectations.
- Needed to be developed in particular areas.
- Had missed opportunities.

Was clear and there was without doubt a positive mood of willingness to engage and provide feedback and support in its improvement in these areas bulleted above as many of you at that meeting individually outlined.

This outline feedback you provided was and is tremendously important and of great value to us all in our endeavours and to the people in St Peters. To make the most of your feedback we therefore invite you to provide detail to your outline comments made at the meeting and provide further feedback you feel would be of value by detailing and identifying:

- Precisely where you feel the current edition falls short.
- Elements of the current edition of the plan you feel are well framed.
- The elements of the 2003 Area Plan you feel are pivotal for the delivery plans strongest elements now in 2007 – 2008 and beyond.

In anticipation of your further engagement in developing the written framework and plan for improvement of service delivery in St Peters on behalf of

- 1) This document is also available for download at [www.stpetersnm.com/content/resources/feedback-invitation-stpnm.pdf](http://www.stpetersnm.com/content/resources/feedback-invitation-stpnm.pdf)
- 2) Availability of the delivery plan as it develops will be maintained here...
